"I wanted to let you know how much I appreciate your kindness, dedication and the diligence that you displayed on your recent interaction with our daughter. I don't think people appreciate or comprehend the work you do and how important you are to children. I do and I thank you. We have begun to implement your suggestions, many are working already! We thank you - it was a rough past two years aca-demically for her and we are so hopeful for her future. Thank you again."

PSYCHOLOGICAL TESTING CONSULTANTS

2023-2024

Forensic and Neuropsychological
Testing Services

Our Success Stories

For over 20 years, we have evaluated children, adolescents, and adults who have difficulties learning or who struggle with behavioral, emotional or social issues.

- Diagnosing Dyslexia, Dysgraphia, Dyscalculia, and Aphasia
- Describing a child's unique clinical and educational needs
- Acquiring needed school-based services
- Explaining ways to teach children with deficits

More about our story

- Eligibility Determination for an Individualized Educational Program (IEP) or 504 plan
- Eligibility Determination for Nonstandard Testing Accommodations
- Eligibility Determination for Social Security Disability
- Eligibility Determination for Employment Accommodations
- Special Education Program Evaluations

We recommend special education services that are necessary to promote effective educational progress as well as behavioral health interventions to promote a student's adaptation to the home and school settings.

Our story

We have been focused on expert witness service to a variety of courts in Massachusetts for over 10 years. We are retained by attorneys practicing out of Juvenile, Family and Probate, Superior, and Federal Courts throughout Massachusetts.

Who We Are

Psychological Testing Consultants has been focused on expert witness service to a variety of courts in Massachusetts for many years now. This specialty area in psychology is known as Forensic Psychology. We are retained by attorneys operating out of Juvenile, Family and Probate, Superior, and Federal Courts in Massachusetts. We also provide special education program evaluations and neuropsychological and psychoeducational testing evaluations to determine special education eligibility.

Planting the seeds of success

Are there times you think your child is capable of better performance in school but you are at a loss as to how to verify your concern?

Do you feel your child is not making effective progress in his or her current special education program?

Neuropsychological and psychoeducational testing may be the answer.
